

# ELLIS Intro™ 3.0

All-new, integrated tutorials make the award-winning ELLIS Intro better than ever.

ELLIS Intro, suitable for beginners from middle school to adult, uses contextual video and 140 completely new, integrated tutorials in vocabulary, grammar, pronunciation, and communication.

*"This powerful multimedia instructional program creates a real-world learning environment."*

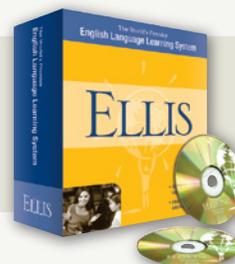

— ESL MAGAZINE

ELLIS Intro's 35 lessons teach everyday English skills as students listen to, interact with, and learn from characters using natural English in real-life situations. Students can stop or repeat a scene, view the text of scripts as they are acted out, slow down the speed of dialogue, and record and compare their own voices to those of native speakers. Every listening activity becomes a speaking opportunity, and practice activities are built into each learning objective.

Learners personalize their own studies by deciding how much native language support they receive and how many times they repeat activities. As they cover practical topics such as shopping, using public transportation, and getting medical attention, students are consistently encouraged to immediately use what they are being taught.
